Good afternoon,

Please see the input below regarding the TSP. This will be included in the record for the May 10th work session.

Thanks
Jen

Subject: I support the North the South Trail with conditions

Dear Councilors--

I wanted to address the north-south trail that the TSP discusses. I am hoping that this trail is just that - a trail. It doesn't need to be a greatly improved trail and we shouldn't expect long straight paths up and over the hill. The trail does need to accommodate two people walking side by side with room for others to pass by easily. It shouldn't be expected to support any type of motorized vehicle as those should be banned from using it. I am hoping by making this path as simple as possible with the expectation that it will have curves around trees and will be a hike -not just an easy paved pathway- we will be able to save as many trees as possible from removal.

I think that saving trees needs to be addressed more effectively in the building permit arena with the tightening of set back variances and ensuring the adherence of homeowners to have proper true green space (not gravel). Also requiring larger and native trees to be planted when tree must be removed would help keep our village green.

Thanks for listening,

Lynn Sinclair
